

# DIGITAL TRANSFORMATION

The need for digital transformation is integral for any modern business that wants to thrive in today's tech-first working environment.

At Stripe OLT, we understand that, in order to change, you need to know where to begin. Sometimes that is with the basics, and sometimes it's with a complete digital transformation.

We believe digital transformation is about more than just updating your technology; it's about enhancing your current processes, employing new ways of working, adapting to an ever-changing business environment and crucially, about empowering your workforce.

Providing your organisation with the holistic technology needed to drive high quality engagement and support impeccable organisation, our secure-cloud experts will empower your workforce, and help you to take full advantage of the performance, scale and resilience that a digital-first workplace offers.

## WHO IS IT FOR?

Our digital transformation services are for any business looking to thrive in today's digital landscape, particularly if productivity, continuity and scalability are a top priority.

## KEY BENEFITS

### Flexibility

Part of any digital business transformation undoubtedly includes a partial or full transition to cloud technology. Working within the cloud allows your employees to sustain their connection no matter the location, easily facilitating a flexible, connected workforce with multiple offices and on various devices.

### Scalability

In embracing digital transformation and operating your business technology through a flexible cloud-based solution, which utilises both AI and automation, your organisation will become responsive and agile – able to keep up with increasing demand and facilitate endless business growth.

### Enhanced security

Cloud-based working can result in vulnerabilities if not suitably managed; so, when adopting a digital workplace, you need to ensure you have a robust cyber-security plan. At Stripe OLT, we implement robust security measures and controls, utilising enterprise-grade security tools to protect your business data, from both internal and external threats.

### Defined technology roadmap

Developing a strong transformation roadmap is essential when you need to deliver constant improvements and facilitate business success. As such, our experts will initially gain a holistic understanding of your business to ensure we start in the right place and with accurate objectives.

### Cutting edge technology

Innovative technology solutions come hand in hand with any digital transformation strategy. As a Microsoft Gold Partner, specialising in Microsoft's cloud solution, Azure, our experts are fully equipped to integrate cutting-edge systems and business applications into your organisation with simplicity and ease.

## WHY STRIPE OLT?

With over 15 years experience, across a vast range of sectors, our experts have cultivated a deep knowledge of business technology. Our dedicated professionals are trusted to pro-actively manage, secure and protect critical, national infrastructures including NHS trusts, airports, and FTSE 100 financial leaders.

We combine a vast knowledge of IT and security technology, to provide our clients with complete, business technology solutions.

## OUR CLIENTS

## ADDITIONAL SUPPORT SERVICES

### IT Relocation

Our office IT relocation and installation services are for any organisation that requires a premise move. With a focus on end-user enablement, we deliver a strategic plan to allow a seamless and efficient transition without penalties such as downtime and disruption.

### Device as a Service

If you need new hardware to support your tech-first workforce, you can eliminate high upfront costs by breaking down your device purchasing into smaller, regular monthly payments with our DaaS solution.

## WHICH STRATEGY IS BEST FOR ME?

At Stripe OLT, we specialise in Microsoft technology and much like Microsoft, we understand that when it comes to business technology, there is no 'one size fits all' solution, so we create bespoke strategies for each of our clients, based on their business requirements.

Whether you need to enhance collaboration with applications like SharePoint and Teams, or secure your environment with Microsoft's Enterprise Mobility & Security solution, our certified team will work alongside you to achieve your goals and drive business success.

Crucially, our team will create and implement digital strategies that will facilitate and encourage and foster the long-term success of your business, while providing ongoing support and advice throughout the transformation process, both pre- and post-project launch.

## HOW MUCH DOES IT COST?

Depending on the strategy that best aligns with your business goals, your transformation will be as unique as your business – so we start with an in-depth discovery.

Through gaining a complete understanding of your business, our Microsoft experts will provide you with a bespoke and flexible plan, costed on requirement.
