Managed Cloud Backup

A Comprehensive Backup Service

Trust your backup to a company with a proven track record

As an experienced support company, Paradise has been providing high-quality backup solutions since 1987. Over the past 10 years, this has evolved into a class-leading service in highly-reliable low-cost cloud backup.

Professional Expertise

We are a Certified Microsoft Gold Partner as well as ISO27001:2013 certified, assuring you of our secure handling of any sensitive data that may be involved.

Available Services

As well as delivering your initial set-up through a structured project team, our service desk will be at your disposal to request changes, check on activity or request restoring of data, including previous versions of existing files. We also offer remote, telephone and email support.

Response times

We operate a job queue system that ensures rapid responses to any problems that may arise. We will normally begin processing an incoming request at once – certainly within one hour, and aim for same day completion. We will also prioritise any issues that have a significant impact on you.

System Monitoring

We can provide a remote monitoring service that allows us to view the health of your backup system during each business day.

Managed Services

We react to any problems as they arise and we'll also give you regular account reviews. These reviews can include a visit to your premises to discuss new technologies that are relevant to your business and to discuss any growth or further requirements you may have.

We specialise in the best Microsoft-based cloud technologies and also have a wide knowledge of other products, including:

- Agile Development of Applications
- Mobile Devices & Development
- Remote working
- Cyber Security
- Integration between systems

For a no obligation consultation or just an informal chat, call us today on 01604 655900 and start exploring the various solutions open to you.

To find out how Paradise can help your business, or to arrange a demonstration, call us today on 01604 655900 or visit our website www.paradisecomputing.co.uk
